

MNJ Technologies Recognized for Excellence in Managed IT Services

Buffalo Grove, IL, February 26, 2018 – MNJ Technologies announced today that [CRN®](#), a brand of [The Channel Company](#), has named MNJ Technologies to its 2018 Managed Service Provider (MSP) 500 list in the Elite 150 category. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today's fast-paced business environments, MSPs play an important role in helping companies leverage new technologies and managed services without straining their budgets or losing focus on their core business. CRN's MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

The list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premises and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premise, cloud-based security services.

MNJ continues to evolve to stay ahead of technology updates and changes in the industry. Their services team prides themselves on years of experience, continuous education, and advanced certifications so that they can best serve their clients through services that stand out among the competition and aid in alleviating pain points and business challenges.

"Managed service providers have become integral to the success of businesses everywhere, both large and small," said Bob Skelley, CEO of The Channel Company. "Capable MSPs enable companies to take their cloud computing to the next level, streamline spending, effectively allocate limited resources and navigate the vast field of available technologies. The companies on CRN's 2018 MSP 500 list stand out for their innovative services, excellence in adapting to customers' changing needs and demonstrated an ability to help businesses get the most out of their IT investments."

"MNJ strives to exceed the expectations of our clients through nimble and genuine managed services that enable our clients to achieve their business and technology goals," says Susan Kozak, President. "Our flexible managed service offerings allow us to enable increased productivity and efficiency and help free up resources so our clients can focus on other business and growth initiatives. To be placed on the CRN Elite 150 list once again is an honor and we are very excited to continue expanding and evolving our managed service footprint."
